

Some Men Can Whistle

And smoke a good cigar at the same time. They'd strangle if they tried it with a bad cigar—but then if the cigar was bad they wouldn't feel like whistling. One reason why our customers whistle so much is the satisfaction they get of us. There must be some reason for the large trade we have—what can it be unless it is that we give the best for the least money?

Junior Club.

The first meeting of the Junior Club for the season of '06-'07 was held last evening with Mr. and Mrs. A. D. Alderman.

After an elaborate supper served at 6 o'clock, the company listened to an article from the Atlantic Monthly on the subject of the proposed alliance of Edgland and America, in which the writer, V. Dicey, took views decidedly in favor of an alliance.

Mr. James Bird criticized the article, and did it well. In a large measure he agreed with the author, but in some details he differed from the gentleman. Messrs. C. E. Corwin, C. P. Dyar, Rev. E. A. Coll, Dr. Nichols and E. R. Alderman discussed the subject, and the substance of their talk was to the effect that they were heartily in favor of an alliance.

At an election of officers for the ensuing year, Mr. T. B. Bosworth was elected President, C. E. Corwin, Vice-President, and Mr. C. P. Dyar, Secretary.

The resignations of Rev. and Mrs. W. E. Roe were tendered and accepted. Mr. and Mrs. W. A. Cooper, Rev. and Mrs. Virgil Boyer and Miss Hattie Waters were voted into membership of the Club.

The next meeting of the Club will be held October 24th with Mrs. Murdoch, Reader, Mrs. Metcalf.

National Alliance of Unitarian Women.

The Marietta Branch of this Alliance held its first meeting in the parlors of the parsonage Monday, October 10th, with a large attendance. Believing that one organization of women in a church will best secure united and effective action they have agreed to merge the "Unity Club," which was so successful and instructive last winter, in the "Branch Alliance," and have prepared a literary programme for each meeting.

Provisions have been made for religious, benevolent and other helpful work. The women of this organization having a firm belief in the universal brotherhood of man, have practically adopted for their motto this sentiment: "Do all the good we can, in all the ways we can, to all the people we can."

The officers are: President Mrs. C. P. Regnier; Vice President, Mrs. E. A. Coll; Secretary, Mrs. Helen Morgan; Treasurer, Mrs. Helen Curtis; Chairman, P. O. Mission, Miss S. R. Warren.

Foehl-Hamilton.

The marriage of Mr. Chas. A. Foehl, of Cambridge, Ohio, and Miss Clara Hamilton, daughter of Mr. and Mrs. John A. Hamilton, is to occur at 9 o'clock this Wednesday morning at the bride's home.

The Rev. Mr. Roe, of the Presbyterian church, will perform the ceremony and there will be present about fifty guests in all. A wedding breakfast will be enjoyed after the ceremony.

Mr. Foehl is one of Cambridge's prominent young men, having a responsible position at that place with the Cleveland and Marietta railroad. Miss Hamilton is a bright and attractive young lady who will contribute not a little to the society of Cambridge, where she and her husband will reside.

Mr. and Mrs. Foehl (soon to be) will leave after the wedding for New York, Atlantic City, Philadelphia, Washington and Pittsburg, to be gone about two weeks.

Unusual Coal Discovery.

A surprising discovery was lately made near Ronceverte by a miner named Wm. Barber, who, while walking through an isolated portion of woods discovered a protruding vein of coal from the hillside, within fifty feet of the county road, on the land of R. W. McDowell. Barber, without making known his find, secured a five year lease upon the land, and then thoroughly investigated the discovery, experts claiming that from the indications it is believed the entire tract of heretofore useless land is underlaid with a fine quality of coal.—Parkersburg News.

Star Clothing House.

Few men understand women. When a woman is weak, sickly, nervous, fretful, irritable and despondent, the average husband imagines that she is simply out of temper. An average husband will probably simply go out and leave her alone for awhile, "to have it out with herself." A bad husband is liable to go off and get drunk. The fact is that the poor wife is suffering from illness of a description that breaks a woman down sooner than anything else. Her back is weak and aches. Her "sides stitch." She has pains and a dragging sensation in the abdomen. Her appetite is touchy and she suffers from nausea. She has sick headaches, giddiness, dizziness, cold chills, flushings of heat, shortness of breath, palpitation, disturbed sleep, frightful dreams, irregularities and nervous and trembling sensations. Her pain-racked nerves are a continual torture.

A woman in this condition is suffering from weakness and disease of the delicate and important organs concerned in wifehood and motherhood. Dr. Pierce's Favorite Prescription makes these organs strong and well. It always inflammation, heat, irritation and soothes pain. It has transformed thousands of sickly, nervous, petulant, childless and unhappy women into happy, healthy, helpful, amiable wives and mothers. It banishes the discomforts of the period of prospective maternity and makes baby's advent easy and almost painless. Good medicine dealers sell it and an honest druggist does not try to urge upon you an inferior substitute for a little extra profit.

If you want a 1008-page home doctor-book, send 21 one-cent stamps, to cover mailing only, for a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser. French cloth binding at stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

New Freight Station.

The receivers of the Baltimore and Ohio railroad have adopted plans and they are about ready to let the contract for a new \$100,000 inbound freight station at Baltimore. The new building will be 600 feet long, 42 feet wide and 6 stories high. It will occupy the site of the present inbound station which is on Eutaw street, between Camden and Barre streets. The new building will have a cold storage plant in the basement and the upper floors will be used as a storage warehouse and all freight will be loaded and unloaded from wagons under cover. The tracks will be so arranged that 75 cars can be unloaded at one time.
